

Requirements of Photo and Signature for Scanning

SAMPLE PHOTO and SIGNATURE

Instructions:

1. The entire image (of size 3.5 cm by 6.0 cm) consisting of the photo alongwith the signature is required to be scanned and stored in *.jpg format on local machine.
2. Before uploading, ensure that the size of the scanned file is less than 30KB.
3. If the size of the file is more than 30 KB, then adjust the settings of the scanner such as the no. of dpi, no. of colours etc., during the process of scanning.

e.g. the Technical Specifications of the sample scanned image shown above are:

- Size of the file ≈ 17.6 KB
- No. of Pixels $\approx 440 \times 770$
- Colour scheme= True colours (24 bit)
- Dpi setting = 300dpi
